April 2018

Spring is in the air! One can hear the sounds of children playing outside, birds chirping, and the crack of the bat at the baseball field. We are officially entering the home stretch of our school year.

In the month ahead, students in grades 3-8 will be taking the PARCC test. This is a required mandate in the educational process as we take time to gather a snapshot assessment of how well our students are doing. Results are used as an instructional tool for our teachers to help us celebrate our students' successes and strengthen our areas of weakness. This is one of many formal and informal assessments the school has always used as we strive to create well-rounded students.

Students in grades PreK-4 have just finished their second trimester assessment. Each student was evaluated on the standards set for their individual grade level.
